Planned Structure (To Be Implemented)

Security Package

- `security/jwt/`
    - `JwtAuthenticationFilter.java`
    - `JwtUtils.java`
    - `JwtProperties.java`
- `security/service/`
    - `UserDetailsServiceImpl.java`
- `security/exception/`
    - `JwtAuthenticationEntryPoint.java`
- `security/util/`
    - `SecurityUtils.java`

Auth Package (Additional)

- `auth/service/`
    - `AuthService.java`
- `auth/dto/` (or `auth/payload/`)
    - `LoginRequest.java`
    - `JwtResponse.java`

User Package (Additional)

- `user/repository/`
    - `UserRepository.java`
- `user/service/`
    - `UserService.java`
- `user/dto/` (or `user/payload/`)
    - `UserResponse.java`
    - `UserCreateRequest.java`
    - `UserUpdateRequest.java`

Content Package (Additional)

- `content/model/`
    - `Article.java` (in addition to existing `Topic.java`)
- `content/repository/`
    - `ArticleRepository.java` (in addition to existing `TopicRepository.java`)
- `content/service/`
    - `ArticleService.java` (in addition to existing `TopicService.java`)
- `content/controller/`
    - `ArticleController.java` (in addition to existing `TopicController.java`)
- `content/payload/`
    - `ArticleRequest.java` (in addition to existing `TopicRequest.java`)
    - `ArticleResponse.java` (in addition to existing `TopicResponse.java`)

Common Package (Additional)

- common/exception/
  - NotFoundException.java
